STUDENTS**

Enrolled at the universities of:
Cagliari, Catania, Ferrara, Naples Federico II, Padua, Palermo, Parma, Rome - Tor Vergata, Venice Ca' Foscari, Enna Kore, Politecnica delle Marche, Bari Aldo Moro

With reference to the [call for application](#) financed by the **Erasmus+ programme** of the European Union, and promoted by the **SEND Mobility Consortium**, we publish below the **rules for the allocation** of the *Erasmus Plus for Traineeship* grants for the universities specified in article 2 of the call.

Note: This regulation refers to mobility grants awarded within the framework of the Erasmus+ project "Universities for Innovation" no. **2023-1-IT02-KA131-HED-000120936**.

GRANT ACCEPTANCE AND WITHDRAWING

GRANTED BENEFICIARIES (idonei assegnatari): are fully entitled to participate in the Erasmus+ traineeship mobility project with a financial contribution as provided for in Art. 3 of the [call for application](#). They must comply with the obligations and rules set out in this document and in the Traineeship Mobility Agreement signed by each participant before departure.

The grants finance periods of a minimum of two months and a maximum of three. It will also be possible to apply for an extension of the mobility period after departure, following what is indicated in the **Grant Allocation Rules** and in the **"Instructions for Completion of Learning Agreement for Traineeship and Grant Agreement"** (hereinafter referred to as L.A.T. and G.A.). Both documents can be found among the attachments on the website www.sendsicilia.it, at the page announcing the ranking.

Grant recipients must **send their acceptance form (Modulo di Accettazione) or withdrawal form (Modulo di Rinuncia)** by **20th DECEMBER 2024** to mobility@sendsicilia.it, with the subject: **"Withdrawal/Acceptance of grant_Name Surname."** Both documents can be found among the attachments on the website www.sendsicilia.it, at the page announcing the ranking.

Note: Students from the **University of Catania** are also requested to send the **Withdrawal Form** prepared by the University to the International Relations Office.

NON-GRANTED BENEFICIARIES (idonei non-assegnatari): they may decide to take part in the project without any financial support, to renounce it or to wait for a possible change in the ranking list to award them a grant at a later date.

In the event of acceptance, they must submit the **acceptance form** and comply with the obligations and rules set out in this document and in the Traineeship Mobility Agreement that each participant must sign before departure.

They are however fully entitled to participate in the Erasmus+ traineeship mobility project "zero grant" i.e. without financial contribution. Their mobility, if carried out regularly and in accordance with the conditions published here, will be recognised for all its other aspects (recognition of planned training credits, award of OLS online language licence, insurance coverage, tutoring).

SCROLL-RANKINGS: As there may be some shortfalls both when this list is released and in the following months, for the sake of speed and expeditiousness, non-granted beneficiaries will be contacted by the SEND Office by TELEPHONE or EMAIL as soon as a grant becomes available. Students are requested to monitor the telephone number and e-mail address provided during the application process.

If any of the grant recipients drop out, SEND will notify the new grantees.

In the event of an equal core, the ranking list will be scrolled in alphabetical order.

NOT ELIGIBLE BENEFICIARIES (non idonei): they have no right to participate in the project as they do not meet the minimum requirements and/or have submitted an incomplete application with respect to what is required by the call for applications in Article 6.

PERIOD OF MOBILITY

Mobility for traineeships can start on **1st February 2024** and are expected to end by **31st July 2025**. Slight variations to the start of the mobility may be considered. If any student needs to return after July 31st, they must notify us before preparing the pre-departure documentation so that the correct project number can be used.

Please note that mobility must be for a **minimum of 2 months** (60 consecutive days) and a **maximum of 3 months** (90 consecutive days). Mobility of a longer duration is, however, possible, subject to the provisions of this call and the Erasmus+ programme regulations.

In such cases, **funding may not be guaranteed for the mobility period after the 90th day**, which may be carried out optionally in '**zero grant**' mode, i.e. 'without grant', while continuing to enjoy 'Erasmus student' status. During the mobility, participants may request an extension to their originally authorised return date, under the terms and conditions that will be communicated below in the "**During Mobility**" section.

BLENDED MOBILITY

Blended placement mobility activities, which include a period spent remotely in the country of residence preceded or followed by an in-person period in the destination country, are admissible, subject to agreement with one's home university and host institution. On the other hand, mobilities that will take place entirely in virtual mode are NOT eligible.

Full recognition through the ECTS system will be granted for all learning outcomes achieved in Erasmus+ mobilities, for all activities carried out in both virtual and physical mobility periods.

In order to enable the development of language skills, participants will benefit from the opportunities provided by the **Online Language Support** hosted on **the EU Academy** before the start of the virtual mobility and throughout the duration of the mobility.

In terms of documentation, participation in blended or virtual mobility activities will be confirmed by the **LA Before section**, the **Transcript of Records/Traineeship Certificate** (LA After) and a **statement from the host institution** on letterhead certifying the actual duration of the virtual activity. In addition, the same documentation before, during and after the mobility described below will also be requested from students who will

carry out their placements virtually.

In terms of **funding**, for blended mobility, the European Commission has set forth new provisions according to which during the period of 'virtual' mobility carried out in one's country of residence, the participant **will NOT be granted** any **contribution** for individual support. Only if the participant will carry out the activity remotely in the country of destination will the full amount of the grant be paid.

DISADVANTAGED SOCIO-ECONOMIC SITUATION

Students and recent graduates with fewer opportunities are defined as those who, for **economic, social, cultural, geographical or health reasons, linked to their migratory background, or for reasons such as disability and learning difficulties** or any other reason, including those which may give rise to discrimination within the meaning of Article 21 of the Charter of Fundamental Rights of the European Union, face obstacles preventing them from enjoying effective access to the opportunities offered by the Erasmus+ programme.

In order to facilitate access to mobility for these students as much as possible, the Consortium guarantees equality and equity in access to the mobility opportunities offered and identifies the following groups of beneficiaries who are entitled to the additional grant for socio-economically disadvantaged status, in line with the **MUR National Provisions 2022¹**, annexed to the Erasmus+ Guidelines:

1. Participants with certified physical, mental and health problems;
2. Economic disadvantage sanctioned with ISEE equal to or less than € 26.306,25 (as per Ministerial Decree 256 of 18 March 2021);
3. Cultural differences e.g. individuals from migrant and refugee backgrounds, national or ethnic minorities, people with difficulties in language adaptation and cultural inclusion, etc;
4. Students with minor children;
5. Working students;
6. Students who are professional athletes;
7. Students orphaned by at least one parent;
8. Students who are children of victims of terrorism and organised crime.

The above conditions must be certified by appropriate documentation and self-certification (see under "BEFORE DEPARTURE", point 1.c)

SPECIAL NEEDS SUPPORT

The Erasmus+ programme pays particular attention to mobile students whose physical, psychological or, more generally, health conditions are such that they would not be able to participate in the programme without additional funding, aimed at contributing to the additional costs incurred for aspects such as support, accommodation and accessibility of premises, as well as pedagogical and technical support services. This is to ensure that everyone can fully enjoy everything that is part of European mobility.

In order to apply for **additional Erasmus+ funding for special needs**, in addition to the contribution for socio-economically disadvantaged status, one must specify one's needs and foresee additional costs related to one's physical, psychic or, more generally, health condition; as well as attach a certificate of disability. The following services are eligible for support, according to individual needs: **specific accommodation, travel assistance, medical presence, support equipment, adaptation of learning material, accompanying persons, etc.**

Requests for an additional special needs contribution must reach SEND at **mobility@sendsicilia.it at least one month before the planned departure**. Instructions on the documentation to be submitted will follow. Following this, SEND will communicate the request to the INDIRE National Agency, which will have to confirm the eligibility of the contribution.

MOBILITY TO UK AND SWITZERLAND

Mobility to the UK and Switzerland is eligible **up to a maximum of 10%** of the total mobility carried out within the "Universities for Innovation".

The eligibility of mobilities to these countries will be granted by SEND in chronological order of departure and subject to availability. Before making arrangements with a host organisation based in Switzerland or the UK, **an email should be sent to mobility@sendsicilia.it to ascertain the availability of places, in order to avoid the ineligibility of your mobility before departure.**

Lastly, for any visa or other documentation required to carry out a traineeship in non-EU countries, it is advisable to contact the International Relations Office of your university and/or the relevant consular and diplomatic authorities².

ONLINE LANGUAGE SUPPORT

As of 1 July 2022, the European Commission's new language learning service will be active: the **Online Language Support** hosted on the **EU Academy** managed by JOINT RESEARCH

² For the United Kingdom, see <https://www.gov.uk/apply-to-come-to-the-uk>.

CENTRE and DG DIGIT, an online learning hub with various themes and multiple services including language learning paths use of new technologies, sharing spaces.

The OLS platform has two sections:

- An **open** one, open to all citizens interested in learning a new language among those available
- One **restricted** to participants in Erasmus+ activities offering customised pathways and additional services.

In addition, with the new OLS it will be possible to choose one or more languages, with no restrictions on the number of courses one wishes to take, and to **test one's level of language competence** during or after the mobility.

Students and recent graduates selected for Erasmus mobility to a Programme Country or a third country not associated to the Programme (Key Actions KA131 and KA171) who undertake a **mobility of more than 14 days** must take the **initial language assessment test** in the language of mobility before the mobility takes place, except in duly justified cases, e.g. language not available in OLS.

Further information on the initial language test will be sent before departure by the SEND staff.

For more information on how the OLS works, please consult the relevant FAQs at the following link:

<https://academy.europa.eu/local/euacademy/pages/faq/category.php?id=8>.

Any changes to the initial signed documentation leading to a REDUCTION of the mobility period or to a change from an in-person to a virtual mobility and thus a reduction of the grant that can be awarded, will result in SEND requesting the partial or total refund of the unused grant.

In the case of a switch from in-person to blended mobility or vice versa (and ONLY in this case) trainees must fill in the part of the Learning Agreement "**During the mobility FOR EXCEPTIONAL CHANGES RELATED TO BLENDED/VIRTUAL MOBILITY**", which must be signed by the host institution and approved by their university. University of Pisa: in the event of an extension request, this must be approved by the host institution and by the CAI of the Department to which it belongs, who must append their signatures at the bottom of the **LA During** the mobility.

University of Bari Aldo Moro: please read the provisions described in the Guide for Trainees - Consortia Bandi Assignees, available at <https://www.uniba.it/it/internazionale/mobilita-in-uscita/studenti/erasmus-plus/modulistica-tirocini/modulistica-tirocini>.

For **students belonging to other universities**, please inquire at the relevant office whether a notification regarding a possible extension or reduction of the placement should be sent or, where applicable, carefully read the **mobility provisions of your university**, which can be downloaded at the following [link](#).

The host institution must send this certificate to SEND, together with the other two completed and signed sections (if the section During the mobility has never been used, it must be included blank), in a **single PDF file** preferably no larger than 2MB. The Training Certificate is one of the documents required by SEND in order to receive the balance of the grant.

The participant will receive via email:

- The online questionnaire (**EU Survey**) prepared by the European Commission, which must be completed and sent within 30 days of receipt.
- The final evaluation questionnaire "Universities for EU Projects" by SEND to be completed within 30 days of receipt.

c. Europass Mobility

The "**Declaration of Virtual Mobility**" template can be found in the folder relating to your university, which can be downloaded at the bottom of this [webpage](#).

e. Documents proving green travel

At the end of the mobility, participants who have declared before their departure that they will make a green trip, must send the **documents proving their journey by sustainable means** (e.g. train or bus ticket, carsharing receipt, etc.) to mobility@sendsicilia.it together with the final required documentation. These documents must state: **first and last name of the participant, route taken** (place of departure and destination), **name of the organisation providing the service.**

2) Tasks to be performed:

The balance of 20% will not be granted until the participant has handed in the documents requested by SEND, filled in the online EU Survey and the SEND "Universities for Innovation" mobility project evaluation questionnaire and finally sent in a scan of the traineeship certificate, as stated above. Participants with a socio-economically disadvantaged situation, who will receive 100% of the allocated grant at the beginning of the mobility, will be obliged to hand over the final documentation to SEND and to complete the required final formalities (online EU Survey questionnaire, SEND mobility project

"Universities for Innovation" evaluation questionnaire and submission of the placement certificate etc.), under penalty of full refund of the paid amount.
